

# PUBLIC INFORMATION MEETING

Lawrenceburg Flood Protection Project (LFPP) | Greendale Flood Protection Project (GFPP)

**Please join us for an “open house” style public information meeting**

Thursday, January 23, 2025 • 1:00 pm - 7:00 pm

Dearborn Adult Center, 311 W. Tate St, Lawrenceburg, IN 47025

The levee systems in Lawrenceburg and Greendale, operated by the Lawrenceburg Conservancy District (LCD), limit the risk of Ohio River flooding and provide miles of recreational facilities. They are critical to public health, safety, and the economy of Dearborn County, Indiana.

LCD is exploring project options and funding sources to improve these flood control systems to meet FEMA accreditation requirements for flood protection.

We value our community's input as we begin developing a design concept for the next generation of flood control in Dearborn County. We look forward to having you at our public meeting to review the proposed improvements and hear your feedback regarding the project.
